

Emergency Medical and ER Teams 

- Unusual burn situation
- Most medical professionals will never see an asphalt burn victim
- Therefore knowledge of what to do is lacking for them
- Greatly assisted by:
 - Periodic focused training on what to do for this type of burn
 - Attaching a burn card with the victim if available

Asphalt Institute Burn Video 

5

Takeaways from Video 

- Use of PPE will greatly minimize danger from contact with hot asphalt
- Never wear short-sleeve shirts around hot asphalt
- Train all works that could be exposed to hot asphalt
- Train personnel that could be called in to help a burn victim
- EMTs and ER personnel rarely know how to treat asphalt burns
